COURSE DESCRIPTION: This online course will present the learner the information to develop necessary critical thinking skills needed to perform an echocardiogram according to standards set by the American Society of Echocardiography. This course contains material that meets or exceeds the minimum standards outline set forth by the American Registry of Diagnostic Medical Sonographers. Content of course material will include extensive descriptions of cardiac pathologies and pathophysiology. Advanced scanning techniques are continued in this course. Advanced interpretation of the echocardiogram is implemented into the previously acquired knowledge base. Students will be meeting or exceeding established standards set for quality in performance of cardiac sonography. This advanced course contains materials and instruction that will assist the student in meeting the final objective of performing and evaluating the complete adult echocardiogram.

PRE-REQUISITES: Pre-requisites for this course are DMS 140, DMS 141, and DMS 144.

TEXTS REQUIRED:

- Reynolds, Terry, *The Echocardiographer's Pocket Reference* Fourth Edition, Arizona Heart Institute, Ph. 800.835.2920.

GRADE POLICY: STUDENTS MUST RECEIVE A 2.0 OR HIGHER IN ALL ECHO COURSES TO REMAIN IN THE PROGRAM. STUDENTS WHO EARN BELOW A 2.0 WILL BE UNABLE TO CONTINUE FURTHER COURSEWORK AND WILL BE REMOVED FROM THEIR CLINICAL EDUCATION CENTER.

A 2.0 is a passing grade. Only courses with passing grades count toward graduation. Other colleges transfer in only courses with passing grades. Many financial aid sources, including most employers, require passing grades. Additionally, earning less than a 2.0 in a class results in not being able to participate in the next level of courses in a discipline that requires this course as a prerequisite. If you attempt to register for the next course sequence and have not passed the prerequisite course, you will be dropped from that class.

Instructor's Responsibilities: To facilitate learning, provide and explain the necessary materials for each student to understand the assignments and develop course performance objectives to a near mastery level.

Student's responsibilities: To be available and ready for each session to cover the necessary topics and to demonstrate their ability to meet performance objectives. It is expected by the instructor that all assignments and readings will be completed on time prior to class so that the student may have the best opportunity to understand the lecture material and make inquiries of difficult topics. The very nature of this program makes it very difficult for one to catch up once they have gotten behind.

It is also the student's responsibility to possess a secure Internet connection for testing purposes. If the students' ISP kicks them off the Internet during a test, the student will not be allowed to take test again and will receive a zero for that test. Students can find secure Internet connection at their local library or community college.

Late Assignment Policy: Late assignments will have a 25% deduction of grade each week late. Test and quizzes have a designated due date and must be completed on time.

Center for Student Success:

At the Center for Student Success, we are committed to providing all students the opportunity to achieve academic success by providing a variety of support services free of charge to JC students. This includes, but is not limited to, peer and faculty tutoring, assistance with transportation, various workshops and seminars, TRiO programs, student employment, and social work services.

In addition, the Center for Student Success (CSS) staff is committed to adapting the College's general services to meet the individual needs of otherwise qualified students with disabilities, for the purpose of providing equal access to all programs and facilities.
