Course Description:

Technical Communications is a course designed to provide practice in a variety of written and oral communications to meet the requirements of the workplace. Projects may include descriptions, instructions, resumes, proposals, reports or online documents. It involves frequent writing, both in and out of class, as well as oral presentations, collaborative activities and individual conferences.

Prerequisite(s):

ENG 085 and ENG 131

Course Goals:

The course goals and objectives incorporate specific General Education Outcomes (GEOs) established by the JC Board of Trustees, administration, and faculty. These goals are in concert with four-year colleges, universities, and reflect input from the professional communities we serve. GEOs guarantee students achieve goals necessary for graduation credit, transferability, and professional skills needed in many certification programs.

The branch of English that examines the writing processes required in the workplace is Technical and Business Writing. You will be spending an intense sixteen week semester studying your role of one who must communicate on the job. Our communications serve a major role in the everyday work of our place of employment, in characterizing its external image and its internal culture. This is your class and you are critical to its success. Please prepare for class since the format will be basically discussion-lecture-activity.

Technical Communications: A Practical Approach 8th Edition, William Sanborn Pfeiffer, 2013

Extras:

Access to a computer and a printer, a folder or binder with pockets and paper fasteners, or ring binder (for your Assignments).

Grading Procedure:

Grading Criteria (Adapted from the State of Michigan):

- 4 The writing is engaging, original, clear, focused; ideas and content are richly developed. Essays contain abundant examples, comparisons, and facts, which are used to expand and support ideas. Control of organization and translations move the reader easily through the text. The voice and tone are authentic and compelling. The work contains few if any errors in spelling, punctuation, or grammar. This is an outstanding reading experience at all levels.

- 3 The writing is generally clear, focused, and well-developed; examples and details support ideas and content where appropriate. The presentation is generally coherent, and its organizational structure is functional. The voice, tone, diction, and sentence structure support meaning. The writing may contain occasional errors.

- 2 The writing has some focus and support; ideas and content may be developed with limited details and examples. The presentation shows some evidence of structure, but it may be artificial or only partially successful. The tone may be inappropriate or the voice uneven. Sentence structure and diction are generally correct but basic. The writing may contain mechanical errors enough to distract the reader. This is an average reading experience.

- 1 The writing has little focus and development. Support for ideas is minimal and at times the ideas themselves may be difficult to identify. There is little discernible shape or direction. The writing demonstrates no control over voice and tone, suggesting the writer's inability to address an idea. Errors in spelling, grammar, usage, capitalization, punctuation, and/or indention are numerous and interfere with the reader's understanding. This is a poor reading experience.

- 0 The writing fails to meet the assignment guidelines, or is plagiarized, or is not completed.

Other: JC Assessment Test(s) may be required by the Board.

HQV Grading: Periodically, a status check will be required by the Student Support Services.

- “H” means the student needs help, assignments are incomplete or inaccurate.
- “Q” means that the student has “Quit” or the student has not attended class and few to no assignments are complete.
- “V” means that the student is doing VERY WELL, assignments are complete and attendance is consistent.

Specific Assignments:

Weekly Assignments (25%) and Class Activities/Attendance (25%) 50%
Project (20%) and Presentation of Project (5%), Tests (25%) 50%

Grading Scale:

4.0	=	90-100	A, A-
3.5	=	86-89	B+
3.0	=	80-85	B, B-
2.5	=	75-79	C+
2.0	=	70-74	C, C-

1.0	=	60-65	D
0.5	=	55-59	D-
0.0	=	0-54	F

Failure:

Unfortunately, it is important to understand that failure in ENG 232 can occur if the student:

- fails to be in attendance
- fails to participate,
- fails to submit assignments,
- fails to submit the class project.

You are responsible for your attendance, your participation, your assignments, and your class project.

Incompletes are not possible (unless there are very serious, extenuating circumstances and more than 80% of your work is complete).

Academic Honesty Policy:

Honesty is expected of all students. Academic honesty is the ethical behavior that includes producing your own work (in your own words) and not representing others' ideas or work (or words) as your own, either by plagiarism, by cheating, or by helping others to do so. There is a **zero-tolerance policy for plagiarism**. If you plagiarize material, the penalty can be a failing grade in the course. For your review, the JCC Academic Honesty Policy is posted online.

Makeup Policy:

All assignments can be redone if the student is not satisfied with his or her grade until **Week 13, April 19, 2017, (or other date if deemed necessary by Dr. Love)**. After that time, incomplete or revised assignments will not be accepted. If you have any questions about your grades, always ask Dr. Love to review your progress.
