

## **COVID-19 Revised 3-20-20**

### **ENG 131.82 Writing Experience I**

#### **COVID-19 Syllabus Addendum**

##### Communication

We will be using BigBlueButton to begin each class period at the same time each night to interact live with students and instructor. (Tuesday and Thursday 6:00 PM) We will continue to use the JetNet and email for announcements and communication. Students are also encouraged to email outside of class time with any questions. Each class meeting agenda will be posted on JetNet with attached activities and documents.

##### Attendance

Even though our class is now online, participation is still required. There will be at least two assignments, usually a forum, and/or BigBlueButton sessions in order to count as your “attendance” for the week. Remember that failure to attend, complete assignments, and make course progress will mean withdrawal from the class. If you have any issues with classwork and making it to our class time BigBlueButton session, you should email or call me, so we can work this out.

##### Office Hours

My office hours are the same, 30 minutes before class and 30 minutes after class. I will be on BigBlueButton early to assist you in any way possible. However, anytime you have a question, email me and I will reply as quickly as possible.

##### Adjustments to the Original 131 Syllabus

Our syllabus will remain relatively the same. We still have the three writing assignments. Each will be revised and handed in for the final portfolio which will be online.

We will still do a final presentation. It will be different in that you will need to have a visual emailed to me which I will share in BigBlueButton, and you can speak over BigBlueButton with the visual. You can do a PowerPoint or you can make a video for me to share. Either creative way you come up with, it will cover your research paper topic and must be emailed to me before you present.

Daily assignments will all be posted on JetNet. We will still do partner revisions through either Breakout rooms or BigBlueButton. We will also do group projects with breakout rooms, BigBlueButton, or emails.

The course outline will stay the same. Grading will stay the same as well.
